

Vernal Witchhazel

Hamamelis vernalis

SPECS

Height:	6-10'
Spread:	10'
Shape:	rounded
Foliage:	green
Fall Color:	golden yellow
Flowers:	yellow to red
Fruit:	capsule
Zone:	4

DESCRIPTION

Exceedingly fragrant flowers cover the branches of this shrub in mid-winter. Some shrubs may display orange to red petals, but usually bright yellow flowers are produced. Its petals roll up in extreme weather, extending its bloom time. Flowering may occur from 3 to 4 weeks.

Foliage turns brilliant golden yellow in the fall, and leaves may be retained on the shrub until the next spring.

Utilize in borders, woodland gardens, in groupings and as a single specimen. Site where views of its flowers can be enjoyed during winter.
