

Common Witchhazel

Hamamelis virginiana

SPECS

Height:	20-30'
Spread:	20-25'
Shape:	rounded
Foliage:	green
Fall Color:	yellow
Flowers:	yellow
Fruit:	capsule
Zone:	3

DESCRIPTION

When most autumn colors have begun to fade, Common Witchhazel is beginning to shine! Fragrant flowers are produced on its bare branches in late fall, and may be displayed on this shrub for several weeks.

Golden yellow foliage in fall is impressive and sometimes occurs simultaneously with the flowering period.

Give this large shrub room to mature. Utilize in borders, woodland gardens and as a single specimen. Site where the fragrance of its flowers can be enjoyed during the season.
