Fruit:	capsule
Zone:	3

DESCRIPTION

Panicle Hydrangeas are hardy, vigorous shrubs with an upright growing habit. They may also be grown tree form. Large panicles of white flowers are produced in summer which mature to pink later in the season. Flowers are held on strong stems and are good for cutting. Panicle Hydrangeas are best grown in full sun. They bloom on new wood, ensuring reliable flower production every year.

White Diamonds™ has large, overlapping white flowers that completely cover its upright panicles. Flowers mature to light pink late in the season.

Utilize in borders, as hedges massed, or as a single specimen.
