SPECS

Height:	4-8'
Spread:	6-8'
Shape:	upright, rounded
Foliage:	dark green
Fall Color:	red-purple
Flowers:	white
Fruit:	capsule
Zone:	5

DESCRIPTION

Oakleaf Hydrangea is a handsome native shrub that offers ornamental interest in every season!

Large panicles of white flowers are produced in early summer, gradually changing to an attractive pink color. The dark green foliage resembles oak leaves and turns purple to red tones in fall. During the winter months its exfoliating bark takes center stage.

Utilize this large shrub in borders, foundation plantings, in groupings or as a single specimen plant.
