DESCRIPTION

Golden Vicary Privet is the go-to shrub to bring bright color into the landscape. The foliage is golden yellow throughout the growing season, turning a pleasant purplish color in the fall. Full sun brings about the best leaf color, shaded interior leaves will be chartreuse-green. Clusters of white flowers are produced in early summer, and are extremely fragrant.

Privet responds well to heavy pruning, and is perfect for screens, hedges and as a backdrop for smaller plantings.
