Fruit:	aggregate of follicles
Zone:	4

DESCRIPTION

Magnolias are invaluable in the garden! Their large, showy blooms are offered in an array of colors, and the variety of size and form makes it easy to find one that will suit your needs.

'Royal Star' is an early bloomer, with a dense, rounded form. It will often exceed 10'. It is adaptable to clay soil, but will falter in very wet or very dry sites. The large white flowers have a high petal count and are very showy with their full, star-like appearance.
