Fruit:	capsule
Zone:	5

DESCRIPTION

From Forever & Ever® Plants, Pistachio Hydrangea is unique with its multi-colored flowers. Scarlet-red to magenta blooms are edged in green, creating an eye-catching color effect. Compact plants have dark green foliage and bloom well in northern climates.

Deadheading spent flowers will encourage more blooms. Utilize in foundation plantings, mixed shrub and perennial borders, or massed in the landscape. Also nice in large containers where its interesting blooms may be viewed more closely.
