

Snowqueen™ Oakleaf Hydrangea

Hydrangea quercifolia 'Flemygea' PP4,458

SPECS

Height:	4-6'
Spread:	4-6'
Shape:	rounded
Foliage:	dark green
Fall Color:	red-purple
Flowers:	white
Fruit:	capsule
Zone:	5

DESCRIPTION

Oakleaf Hydrangea is a handsome native shrub that offers ornamental interest in every season!

Snowqueen™ is more compact than the species. Its panicles of white flowers are smaller, but are more abundantly produced in early summer. Flowers gradually change to an attractive pink color. The dark green foliage resembles oak leaves and turns purple to red tones in fall. During the winter months its exfoliating bark takes center stage.

Snowqueen™ is a fine addition for shrub borders, foundation plantings, in groupings or as a single specimen plant.
