SPECS

Height:	3-4'
Spread:	2-3'
Shape:	rounded
Foliage:	dark green
Fall Color:	red-purple
Flowers:	white
Fruit:	capsule
Zone:	5

DESCRIPTION

Oakleaf Hydrangea is a handsome native shrub that offers ornamental interest in every season!

'PeeWee' is more compact than the both the species and Snowqueen™. Its small panicles of white flowers are plentiful in early summer, gradually changing to an attractive pink color. The dark green foliage is closely packed, resembles oak leaves and turns purple to red tones in fall. During the winter months its exfoliating bark takes center stage.

The compact form of 'PeeWee' makes it easier to integrate into foundation plantings, smaller areas in shrub borders, or massed in the landscape.
