

# Alice Oakleaf Hydrangea

*Hydrangea quercifolia* 'Alice'

## SPECS

Height:	8-12'
Spread:	8-12'
Shape:	upright, rounded
Foliage:	dark green
Fall Color:	red-purple
Flowers:	white
Fruit:	capsule
Zone:	5

## DESCRIPTION

Oakleaf Hydrangea is a handsome native shrub that offers ornamental interest in every season!

'Alice' is a vigorous large shrub. Its panicles of white flowers in early summer are huge, creating quite a show when in full bloom. Flowers gradually change to an attractive pink color. The large dark green leaves resemble that of an oak, and turn purple to red tones in fall. During the winter months its exfoliating bark takes center stage.

Utilize this large shrub where there is ample space. Plant in borders, as a background plant, or as a single specimen.
