SPECS

Height:	2'
Spread:	3-4'
Shape:	mounded
Foliage:	dark green
Fall Color:	yellow
Flowers:	light pink
Fruit:	capsule
Zone:	4

DESCRIPTION

Weigela has long been valued for their profuse display of brightly colored flowers in late spring. They are extremely adaptable to soil type and grow best in full sun.

Pink Poppet™ has a mounded, spreading form. Its clusters of light pink flowers contrast nicely with its dark green, shiny foliage.

The compact size of Pink Poppet™ lends itself well for the front of borders and planting into containers. It looks nice massed or, with a little pruning to tidy the plant after flowering, it could be incorporated into foundation plantings.
