Fall Color:	yellowish
Flowers:	yellow
Fruit:	seldom
Zone:	4

## DESCRIPTION

Magnolias are invaluable in the garden! Their large, showy blooms are offered in an array of colors, and the variety of size and form makes it easy to find one that will suit your needs.

'Butterflies' has an upright, pyramidal habit, and may be tree form or multi-stemmed. Deep yellow flowers are produced in spring before the leaves and are faintly lemon-scented. Foliage is lustrous dark green and clean throughout the growing season.

'Butterflies' exhibits good urban tolerance and grows well through summer heat.
