Fruit:	insignificant
Zone:	5

DESCRIPTION

The most popular of the 'Green Series' of Boxwood, this cultivar exhibits vigorous growth and exceptional hardiness. Its dark green foliage is dense and holds its color well throughout the winter months.

'Green Velvet' will maintain a rounded form if left unsheared, or it may be pruned to a low hedge, or any imaginable shape!

Utilize this versatile shrub in foundation plantings, for formal gardens, as hedges, in containers and anywhere a reliable evergreen is needed.
