Height:	30-45'
Spread:	10-15'
Shape:	weeping
Foliage:	green
Fall Color:	evergreen
Flowers:	insignificant
Fruit:	cone
Zone:	4

DESCRIPTION

Weeping Alaskan Cedar is a gracefully weeping evergreen tree. The flattened sprays of scale-like foliage is bluish-green and hangs vertically from drooping branches.

While Weeping Alaskan Cedar is fairly adaptable to various conditions, it will grow best in a cool location with moist, well-drained soil. Provide a bit of light afternoon shade in hot climates.

This elegant tree is excellent as a single landscape specimen. It is also effective in groupings.
