Common Lilac
BLOOMERANG® - on Standard
Syringa x ‘Penda’

Ht. 6 ft. / Wt. 6-8 ft. / Flower: Purple
Compact, dense plant produces a profusion of fragrant purple flowers in spring. Sporadic blooming continues until the heat of summer then a flush of new blooms return with the cooler temperatures in fall. A Proven Winners® variety. (#1449)

DWARF KOREAN - on Standard
Syringa meyeri

Ht. 4-8 ft. / Wt. 12 ft. / Flower: Reddish-Purple
Vigorous and extremely floriferous. Dwarf Korean Lilac is a mainstay in landscape. Fragrant lilac flowers that cover this dense, compact tree in early summer. Responds well to pruning. (#1397)

PEKINENSIS
Syringa meyeri/S. Pekinensis standard

Ht. 4-8 ft. / Wt. 12 ft. / Flower: Lilac
Syringa meyeri grafted onto a Syringa Pekinensis standard. The beautifully exfoliating, copper-colored bark of S. Pekinensis, coupled with the profuse blooms of S. meyeri create a specimen with multi-season interest. (#1398)

GOLDEN ECLIPSE
Syringa reticulata ‘Golden Eclipse’

Ht. 20 ft. / Wt. 12-16 ft. / Flower: White
New spring foliage emerges a variegated dark green center/light green margin. Leaf edges gradually turn bright gold. Creamy white flowers in late spring. Upright pyramidal to oval growth habit. Use as a specimen or in small groups. Zone 4 ( #0571)
IVORY PILLAR™
Syringa reticulata ‘Williamette’

Ht. 20-25 ft. / Wt. 10-15 ft. / Flower: White
Ivory Pillar™ is not quite a pillar as the name implies but is a decidedly more pyramidal form of the Japanese Tree Lilac. Creamy-white flowers are produced on large panicles in early summer. (#0545)

IVORY SILK™
Syringa reticulata ‘Ivory Silk™’

Ht. 20-25 ft. / Wt. 15 ft. / Flower: White
‘Ivory Silk™’ displays a more oval to rounded crown than ’Ivory Pillar™’. Its large panicles of ivory-white flowers are produced with abundance in early summer. (#0570)

SNOWDANCE™
Syringa reticulata ‘Bailnce’

Ht. 18 ft. / Wt. 20 ft. / Flower: White
Snowdance™ has a graceful, spreading habit. An exceptionally heavy bloomer, it produces large panicles of creamy-white flowers in early summer. This sterile form does not produce unsightly seed pods. (#0561)
ANABEL
Syringa x hyacinthiflora ‘Anabel’
Ht. 10 ft. / Wt. 10 ft. / Flower: White - Early Flowering
An excellent performer in the landscape, ‘Anabel’ has pinkish buds that open to fragrant double white flowers on large, loose panicles. (#1414) [photo courtesy of Briggs Nursery]

ANGEL WHITE
Syringa x hyacinthiflora ‘Angel White’
Ht. 8-10 ft. / Wt. 6-8 ft. / Flower: Pink - Early Flowering
Pure white blooms that open in mid-spring. (#1394)

MISS KIM
Syringa pubescens subsp. patula ‘Miss Kim’
Ht. 6-8 ft. / Wt. 4-5 ft. / Flower: Lilac
Small panicles of fragrant lilac flowers are abundantly produced in early summer. A vigorous selection; Miss Kim has the ability to grow quite large but responds well to shearing after flowers finish. (#1405)

PERSIAN LILAC
Syringa x persica
Ht. 4-8 ft. / Wt. 5-10 ft. / Flower: Pale Violet
Graceful shrub with an upright, arching habit. Its fragrant, pale lilac flowers are borne profusely on its slender branches. (#1424)
Preston Lilacs flower up to two weeks after Syringa vulgaris. Buds are produced on new wood at the tips of the shoots and each produce several dense panicles. They have a light, privet-like scent.

**DONALD WYMAN**
Syringa x prestoniae ‘Donald Wyman’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Reddish-Pink

Considered by many to be the finest lilac, ‘Donald Wyman’ produces an abundance of large reddish-pink flowers on large, dense panicles. Typical of most Preston Lilacs, its large, dark green leaves have excellent resistance. (#1453)

**JAMES MACFARLANE**
Syringa x prestoniae ‘James Macfarlane’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Pink

A floriferous cultivar, ‘James Macfarlane’ displays a large panicle of bright pink flowers. Typical of most Preston Lilacs, its large, dark green leaves have excellent mildew resistance. (#1450)

**MISS CANADA**
Syringa x prestoniae ‘Miss Canada’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Rose-Pink

The reddish buds of ‘Miss Canada’ open to rosy-pink flowers on large panicles. A vigorous grower with an extremely dense habit, its large, dark green leaves have excellent mildew resistance. (#1539)

Acorn Farms Inc.
7679 Worthington Rd., Galena, OH 43021  acornfarms@acornfarms.com  614-891-9348 ph  614-891-1002 fx
Common lilacs are a long-time garden favorite, grown primarily for their heavily spring flowers which are available in a myriad of colors. Provide good air circulation to help deter powdery mildew.

**BELLE DE NANCY**  
*Syringa vulgaris ‘Belle de Nancy’*  
Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Pink  
Hardy French Hybrid variety with intensely fragrant double pink flowers with upright panicles in mid-Spring. Strongly fragrant as they emerge in the spring. (#1402)

**BURGUNDY QUEEN™**  
*Syringa vulgaris ‘LECburg’*  
Ht. 8-10 ft. / Wt. 6-8 ft. / Flower: Burgundy  
Fragrant clusters of dark burgundy flowers arrive two weeks earlier than other French hybrids. (#1442)

**CHARLES JOLY**  
*Syringa vulgaris ‘Charles Joly’*  
Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Purple  
This French Hybrid variety has an upright, open-branched habit with purple buds that open to fragrant magenta double flowers. (#1416)

**CONGO**  
*Syringa vulgaris ‘Congo’*  
Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Magenta  
Upright flower panicles appear in late spring to early summer. Heavy blooming variety with fragrant magenta flowers (#1417)

Acorn Farms Inc.  
7679 Worthington Rd., Galena, OH 43021  
acornfarms@acornfarms.com
DAPPLED DAWN
Syringa vulgaris ‘Dappled Dawn’

Ht. 8-10 ft. / Wt. 6-7 ft. / Flower: Blue
This upright, rounded shrub has gold and green variegated foliage with stunning lilac/pale blue flowers emerging mid-Spring. (#1406)

KRASAVITSA MOSKYY
Syringa vulgaris ‘Krasavitsa Moskvy’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: White
Large panicles of white double flowers are tinged with pink in mid spring. (#1421)

MADAME LEMOINE
Syringa vulgaris ‘Madame Lemoine’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: White
Wide spreading hybrid lilac with large, double white flowers with yellow buds emerge in spring. (#1430)

PAUL THIRION
Syringa vulgaris ‘Paul Thirion’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Purple
Deep reddish pink buds open to delicate, exceptionally fragrant purple flowers in mid-spring. (#1426)
PRESIDENT GREVY
Syringa vulgaris ‘President Grevy’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Lilac-Blue

Truly a stand-out for its outstanding spring bloom! Buds begin in a dark shade of blue opening to a lilac-blue, providing a stellar two-tone effect. (#1473)

PRESIDENT POINCARE
Syringa vulgaris ‘President Poincare’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Magenta

This 1913 beauty has large deliciously fragrant, double magenta flowers with twisted petals that open from dark red buds. (#1443)

SENSATION
Syringa vulgaris ‘Sensation’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Purple/White

‘Sensation’ offers a unique bi-color flower effect. Its fragrant purple flowers have a white margin on the petals and are produced on large panicles in spring. (#1428)

SILVER KING
Syringa vulgaris ‘Silver King’

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Pale Blue-White

Fragrant, elegant silver-lavender blossoms mid-season. (#1404)
**WEDGEWOOD BLUE**

*Syringa vulgaris ‘Wedgewood Blue’*

Ht. 6 ft. / Wt. 6-8 ft. / Flower: Blue

Fragrant lilac-pink buds open into very large, single blue flowers in upright panicles during the month of May. This lower growing cultivar exhibits excellent mildew resistance and is extremely fragrant. (#1452)

---

**YANKEE DOODLE**

*Syringa vulgaris ‘Yankee Doodle’*

Ht. 7-8 ft. / Wt. 7-8 ft. / Flower: Purple

Deepest, darkest purple lilac! Its individual flowers are large, displayed on panicles up to 8” long and have a strong fragrance along with an upright habit. (#1411)

---

**COMMON LILAC**

*Syringa vulgaris*

Ht. 8-10 ft. / Wt. 8-10 ft. / Flower: Lavender

Highly fragrant, showy clustered blossoms on stout, spreading branches. (#1410)
