Koelreuteria paniculata

SPECS

Height:	30'
Spread:	30'
Shape:	rounded
Foliage:	green
Fall Color:	yellow
Flowers:	yellow
Fruit:	papery capsules
Zone:	5

DESCRIPTION

Goldenrain Tree is a lovely small specimen. It features long panicles of bright yellow flowers in mid-summer, when very few other trees are blooming. The effect of this tree in flower is stunning! Flowers are followed by clusters of yellowish papery capsules, which may turn pink before maturing to brown. Foliage is pinnately compound, emerging a reddish color when unfolding, quickly changing to bright green. Fall brings golden yellow tones.

Goldenrain Tree is tough and durable, adapting to various soil and climactic conditions. Utilize this small shade tree as a lawn specimen, near decks or patios and as a street tree.
