

# Lynwood Gold Forsythia

*Forsythia x intermedia* 'Lynwood'

## SPECS

Height:	5-7'
Spread:	7'
Shape:	upright, arching
Foliage:	deep green
Fall Color:	yellow
Flowers:	yellow
Fruit:	capsule
Zone:	4

## DESCRIPTION

The classic harbinger of spring, Forsythia explodes with a profusion of sunny flowers!

Lynwood Gold is an upright shrub, with arching, spreading branches. This fast grower performs well in full sun to partial shade, and is tolerant of urban conditions. It is a reliable and heavy bloomer, with large yellow flowers produced along the stems in early spring.

This large shrub is useful for shrub borders and bank planting and is impressive when massed.
