Zone:	4

DESCRIPTION

Weigela has long been valued for their profuse display of brightly colored flowers in late spring. They are extremely adaptable to soil type and grow best in full sun.

Tuxedo® is a strong grower and an exceptional performer in the garden. This compact plant is loaded with blooms, and the pure white flowers provide a bright contrast against its deep burgundy foliage.

The compact size of Tuxedo® makes it perfect for the front of borders, in large containers, perennial gardens, or massed in the landscape.
