Height:	12'
Spread:	15'
Shape:	spreading, vase
Foliage:	yellow/chartreuse
Fall Color:	yellow
Flowers:	reddish-pink
Fruit:	pod
Zone:	4

DESCRIPTION

'Hearts Of Gold' is an eye-catcher! The new growth emerges glossy orange-red, quickly changing to bright golden yellow. Full sun brings out the best leaf coloration, and the leaves do not scorch. Foliage color sustains much of the season with ample moisture, but will develop a chartreuse to light green coloration when shaded. Typical of other redbud, tiny reddish pink flowers are produced along the bare stems in early spring.

Plant in borders or as a single specimen. It is lovely integrated into naturalized areas and in woodland gardens.
