Zone:	4

DESCRIPTION

Crabapples are prized for their spectacular display of fragrant blooms in the spring. Colorful fruit extends their interest into the fall and winter months. The staggering choices of size, form, flower and fruit colors makes it easy to choose at least one for nearly every landscape situation.

'Prairifire' has an upright habit with a spreading, rounded crown. Its pink-red flowers are a lovely contrast to the purple foliage. Foliage matures to red-green during the summer months. Dark red fruits are produced in fall.
