| Fall Color: | yellow |
| Flowers: | white |
| Fruit: | red, persistent |
| Zone: | 4 |

DESCRIPTION

Crabapples are prized for their spectacular display of fragrant blooms in the spring. Colorful fruit extends their interest into the fall and winter months. The staggering choices of size, form, flower and fruit colors make it easy to choose at least one for nearly every landscape situation.

Sugar Tyme has an upright habit with a spreading, oval crown. Abundant white flowers are produced in spring, followed by red fruit that persist through winter.
