

Red Buckeye

Aesculus pavia

SPECS

Height:	10-20'
Spread:	10-20'
Shape:	rounded
Foliage:	green
Fall Color:	yellow
Flowers:	red
Fruit:	buckeye
Zone:	4

DESCRIPTION

Red Buckeye is a handsome clump-forming shrub or small tree. In spring it features showy red flowers on 4-8" long panicles. Palmately compound foliage is lustrous during the spring and summer, abscising early in the fall. Smooth, light brown capsules develop in late summer, each containing one or two shiny buckeyes.

Red Buckeye is perfect for the partially shaded site, as a single specimen or within shrub and woodland borders.
