DESCRIPTION

Part of the Flutterby™ series from Ball Ornamentals, which is the first complete series of sterile Butterfly Bush.

The Flutterby Grande™ series grow to an impressive size in a single season and have large panicles of uniquely colored flowers. 'Peach Cobbler' features fragrant, peachy-pink blooms.

Butterfly Bush is great for attracting butterflies and hummingbirds to the garden. The larger size of this cultivar makes it perfect for shrub borders, and as a background planting in perennial gardens.
