

# Royal Red Butterfly Bush

*Buddleia davidii* 'Royal Red' PP19,550

## SPECS

Height:	6'+
Spread:	6'+
Shape:	upright, arching
Foliage:	green
Fall Color:	yellow
Flowers:	purple-red
Fruit:	capsule
Zone:	5

## DESCRIPTION

'Royal Red' is a vigorous Butterfly Bush, reaching heights of over 6' in a single season. Its panicles of fragrant purple-red flowers are huge, often over 12" in length, and are produced liberally.

Butterfly Bush is great for attracting butterflies and hummingbirds to the garden. The larger size of this cultivar makes it perfect for shrub borders, and as a background planting in perennial gardens.
