SPECS

Height:	6-9'
Spread:	6-9'
Shape:	rounded
Foliage:	green
Fall Color:	yellow
Flowers:	red-brown
Fruit:	capsule
Zone:	4

DESCRIPTION

Calycanthus is an attractive, trouble-free shrub that is adaptable to various conditions. Its dark green foliage is lustrous, remaining handsome throughout the growing season. The unique flowers of this shrub are a red-brown color and are produced at the leaf axil along the stems. Flowers have a spicy-sweet, fruity fragrance, giving it the common names Sweetshrub or Spicebush. *Calycanthus* is densely rounded in form and easily grown in average soil, making it a fine choice for many landscape situations. Site in full sun to partial shade within shrub borders, as a backdrop plant, and wherever the fragrance of its flowers can be appreciated.
