Fall Color:	brilliant red
Flowers:	yellow-green
Fruit:	orange-red
Zone:	4

DESCRIPTION

Dwarf Burning Bush is a popular shrub because of its adaptability and outstanding fall color.

Dark green foliage is clean and attractive throughout the growing season, turning impressive bright red in the fall. Small red fruits and corky bark add additional interest during the winter months.

Dwarf Burning Bush is adaptable to various soils. Full sun brings about the best fall color. Plant as a single specimen, in groups or massed, use as hedges, screens, backdrops, in shrub borders or foundation plantings...truly a versatile shrub!
