DESCRIPTION

Magnolias are invaluable in the garden! Their large, showy blooms are offered in an array of colors, and the variety of size and form makes it easy to find one that will suit your needs.

'Jane' is part of the Little Girl Series which were developed to flower later, so as not to be damaged by late spring frosts. Dark green foliage is attractive throughout the season, provided it is planted in areas with good air circulation to reduce any chance of powdery mildew. The flowers of 'Jane' are a dark red-purple on the outside of the petals, white on the interior. 'Jane' shows sporadic rebloom during the summer months.
