

Miss Ruby Butterfly Bush

Buddleia davidii 'Miss Ruby' PP19,550

SPECS

Height:	4-5'
Spread:	4-5'
Shape:	mounded, arching
Foliage:	green
Fall Color:	yellow
Flowers:	magenta
Fruit:	capsule
Zone:	5

DESCRIPTION

Developed by Dr. Werner of the JC Raulston Arboretum and introduced by Proven Winners®, 'Miss Ruby' was selected for its eye-catching vivid blooms. Bright magenta-pink flowers are fragrant and plentiful, and their color is unlike any other variety.

Butterfly Bush is great for attracting butterflies and hummingbirds to the garden. The compact size of this cultivar makes it perfect for smaller spaces in perennial gardens and shrub borders. Its prolific blooms makes it an ideal choice for large containers, to be planted into the garden at seasons' end.
