SPECS

Height:	6-8'
Spread:	6-8'
Shape:	rounded
Foliage:	green
Fall Color:	red
Flowers:	creamy white
Fruit:	red
Zone:	4

DESCRIPTION

Viburnums are a versatile group of shrubs that are invaluable in the landscape. They offer a variety of sizes and growth habits, flowers, fruit, fall color, as well as selections for sun or shade. There is a Viburnum for nearly every landscape situation.

'Emerald Triumph' is a cross of *V. x rhytidophylloides* 'Allegheny' and *V. burejaeticum*. Its large white flowers aren't fragrant, but are showy with the lustrous dark green foliage. Large clusters of red fruit are produced in late summer, maturing to black. Dark red fall color persists for weeks.

'Emerald Triumph' grows well in full sun to partial shade, and is tolerant of heavy clay soil. Plant as hedges, screens or in groupings within shrub borders.
