Fruit:	bright red
Zone:	4

DESCRIPTION

The season-long color that Barberry brings to the landscape makes them popular garden shrubs. A multitude of foliage colors exist, which provide interest from Spring to Fall, and their spiny branches are invaluable for use as hedging and barrier plants. They transplant easily, withstand pruning, and are adaptable to various growing conditions.

Sunjoy® Mini Salsa is an improved variety of 'Crimson Pygmy', offering a consistent compact form without pruning, and dark red foliage.

The compact size of Sunjoy® Mini Salsa is perfect for edging the fronts of borders, as a mass planting and in rock gardens.
