SPECS

Height:	2-3'
Spread:	3-4'
Shape:	mounded
Foliage:	dark green
Fall Color:	red-purple
Flowers:	white
Fruit:	capsule
Zone:	5

DESCRIPTION

Oakleaf Hydrangea is a handsome native shrub that offers ornamental interest in every season!

'Sikes Dwarf' is a dwarf form, with a mounded, somewhat spreading habit. Its small panicles of white flowers in early summer gradually change to an attractive pink color. Small dark green foliage resembles oak leaves and turns purple to red tones in fall. During the winter months its exfoliating bark takes center stage.

The diminutive size of 'Sikes Dwarf' is perfect for smaller areas in shrub borders, foundations plantings, or massed in the landscape.
