Spread:	12-15'
Shape:	pyramidal
Foliage:	blue-green
Fall Color:	evergreen
Flowers:	insignificant
Fruit:	cone
Zone:	4

## DESCRIPTION

This adaptable, vigorous tree has an upright, pyramidal habit. Its soft needles are produced in bundles, and are a silvery blue-green color.

Vanderwolf's Pyramid is tolerant of adverse climactic conditions and is adaptable to various soil types. It will grow slowly into a dense, pyramidal form.

This evergreen tree provides nice landscape color and can be utilized as a single specimen, in groupings or for foundation plantings where space is limited.
